Hi Judith -

I actually had several conversations yesterday about this and I was planning to reach out to you, and everyone you mentioned, this morning. I'll get that email out shortly and work to get something confirmed for this week.

This whole situation is very sad. It's been interesting to see the surge in press coverage over the past couple of days.

Thanks,

Lou

Subject: This week

Hi there. I am very interested in having the broader discussion about the use of methyl bromide that Tom Reynolds mentioned to me that u will be organizing. Jim Jones, Janet McCabe, Cynthia Giles and me are key. I can move things around but this Friday might be best. Cynthia is in Philly today welcoming a new grand child. If she can't do it this week perhaps invite Larry Starfield. My colleague Nancy Beck can schedule for me. Google the story today. Tx
